

Roman Around Home Learning

Home Learning Task

This half term, we invite you to create a Roman shield for our Roman Triumph Day celebration at the end of the term. The children will be getting involved in Roman artillery training, and will be given an opportunity to put their shield into practice. This project will be a fantastic opportunity to explore Roman history and showcase your creativity!

What to do

Create a Roman shield using materials like paper, cardboard, or foam. Research Roman shields for design ideas. Bring your shield for Roman Triumph Day at the end of the half term.

To be completed and brought into
school for the week beginning
Monday 2nd February
