

Spring 1 Home Learning

To be completed and brought into school during the week of Monday 9th February 2026

Home Learning Task

For this term's home learning, we would like to give you a task related to our science topic.

Draw a local habitat or make a diorama of one.

Your chosen work needs to be a drawing or diorama of a local area. This could be the heath, the beach, a harbour, a river etc. It would be fantastic if your home learning was made from recycled materials from your household! Below are some ideas.

What to do

You will have the chance to show it to your class and answer questions.

Success Criteria

To make something that...

- Is related to a local habitat.
- Includes labels.
- If possible, is made out of recycled materials.
- Includes animals and plants that are in the area.
- You can tell your classmates about!
