

Five Go Mountaineering

To be completed and brought into school by the end of the half term.

Home Learning Task

For this half term we would like you to research and present something based on mountains or a mountain range that you are interested in!

What to do

Your chosen area of interest can be presented in any way that suits you! Be as creative as you like, it could be a topological map, a poster on the alps, a mountain formation model or even a cake mountain! Go wild and do what you are interested and passionate about.

Success Criteria

To research a famous mountain, mountaineer or mountain range:

- Choose an area of interest e.g. fold mountains, Edmund Hillary, Mont Blanc etc!
- Include information about your chosen area to display or in note form to explain.
- If written, you might separate the chosen area into different sections and subheadings.
- Add any other information you think is interesting.
- Present your work beautifully.
