

Sexual Education Guidance for Parents Year 6 Summer 2021

Government Guidance

- ▶ Previously a Personal, Social, Health and Citizenship Education (PSHCE) had not been compulsory.
- ▶ From September 2020, the government implemented a COMPULSORY Relationship and Sex Education (RSE) and Health Education.
- ▶ From September 2020, Primary schools MUST teach Relationships Education and Health Education but Sex Education is at the school's discretion. However, they must still teach the Science curriculum which covers some of the topics discussed in Sex Education.

Relationships Education, Relationships and Sex Education (RSE) and Health Education

Statutory guidance for governing bodies, proprietors, head teachers, principals, senior leadership teams, teachers

Secretary of State Foreword – Key Points

Department
for Education

What are the aims of Relationships Education, Sex Education and Health Education in the primary school?

The opening paragraph of the Department for Education guidance states:

“Today’s children and young people are growing up in an increasingly complex world and living their lives seamlessly on and offline. This presents many positive and exciting opportunities, but also challenges and risks. In this environment, children and young people need to know how to be safe and healthy, and how to manage their academic, personal and social lives in a positive way.”

(DfE, 2019, Relationships Education, Relationships and Sex Education and Health Education)

Why is teaching Sexual Education important?

- ▶ Today children are exposed to so much through the internet, social media, music, You Tube, News, friends and older siblings or family members.
- ▶ Jigsaw aims to educate children in a uniformed and safe way so that children do not interpret information incorrectly or get the wrong information from sources.

Changing Me

- ▶ Due to the national lockdown last year, we decided it was really important that children didn't miss out on previous years' curriculum so we have combined both the Year 5 and Year 6 information and will teach it to your child this year during the second part of the summer term.

Puberty and Human Reproduction in Jigsaw 3-11

| | | |
|----|----------------------|---|
| Y5 | Puberty for girls | Physical changes and feelings about them – importance of looking after yourself (animations used – the Female Reproductive System) |
| | Puberty for boys | Developing understanding of changes for both sexes – reassurance and exploring feelings (animations used – the Male Reproductive System) |
| | Conception | Understanding the place of sexual intercourse in a relationship and how it can lead to conception and the wonder of a new life (animations used – the Female and Male Reproductive Systems) |
| Y6 | Puberty | Consolidating understanding of physical and emotional changes and how they affect us (animations used – the Female and Male Reproductive Systems) |
| | Girl talk / boy talk | A chance to ask questions and reflect (single sex) (animations used – the Female and Male Reproductive Systems) |
| | Conception to birth | The story of pregnancy and birth (animations used – the Female and Male Reproductive Systems) |

Introducing

The Female Reproductive System

KS2 resource -outside changes for girls

Example of one of the KS2 resources – inside changes for girls

Example of a KS2 resource - conception

Example of a KS2 resource conception and childbirth

The womb grows and gets ready to make a safe space for a baby to grow until it is big enough to be born

The passage that leads from the womb to the outside is called the vagina

Introducing

The Male Reproductive System

KS2 resource – outside changes for boys

Example of one of the KS2 resources – inside body changes for boys

Example of a KS 2 resource – body image and self esteem/ exploring the impact of social media on mental health

Does my child have to take part?

- ▶ Children have to participate in the science element * of the sexual education curriculum but you are allowed to opt out of the other parts.
- ▶ If you wish to do this please notify your child's class teacher in writing with your reasons for choosing to do so.
- ▶ You may get a phone call from the school to discuss this further.

We believe that Jigsaw allows us to share this vital information in a safe and unthreatening way with your child. We feel that it is key that children get the correct information from a safe and trusted source.

* Describe the changes as humans develop to old age.

*They should learn about the changes experienced in puberty.

Any questions?
